

Frontend Mini Labs & Skill Labs

INTRODUCTION

Introduction

This project focuses on designing and developing a basic web page using **HTML (HyperText Markup Language)**.

HTML is the backbone of web development and is used to structure content on the web.

In this project, a simple and user-friendly web page is created to understand how HTML elements like headings, paragraphs, images, and links work together to produce output in a web browser.

This project helps beginners gain hands-on experience in creating and running HTML files and understanding how browsers render web pages.

TABLE OF CONTENTS:

S.No Contents

- 1 Introduction
- 2 Objective of the Project
- 3 Tools & Software Used
- 4 Languages Used
- 5 Project Description
- 6 Sample Output
- 7 Conclusion

OBJECTIVE OF THE PROJECT:

- To understand the basic structure of an HTML document
- To learn how HTML tags work
- To display content using a web browser
- To gain practical knowledge of web page creation

TOOLS & SOFTWARE USED:

- **Text Editor** : Notepad / Visual Studio Code
- **Web Browser** : Google Chrome / Microsoft Edge
- **Operating System** : Windows

LANGUAGES USED:

HTML (HYPERTEXT MARKUP LANGUAGE)

HTML is used to create the structure of the web page.

It defines elements such as headings, paragraphs, images, and links.

Frontend Mini Labs & Skill Labs

Features of HTML:

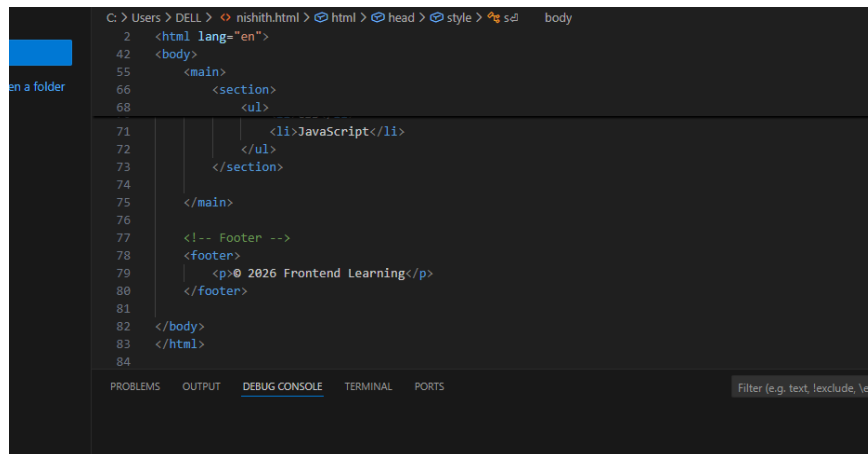

- Easy to learn
- Platform independent
- Supported by all browsers
- Used to create web page structure

PROJECT DESCRIPTION:

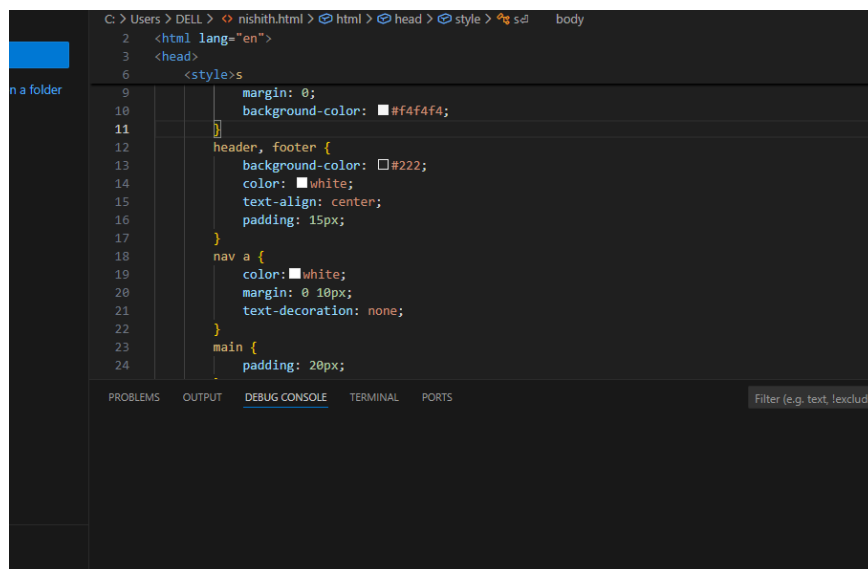

In this project, an HTML file is created using a text editor and saved with a `.html` extension. The file is executed by opening it in a web browser.

The browser interprets the HTML code and displays the output such as headings, text content, and other elements on the screen.

PROJECT :

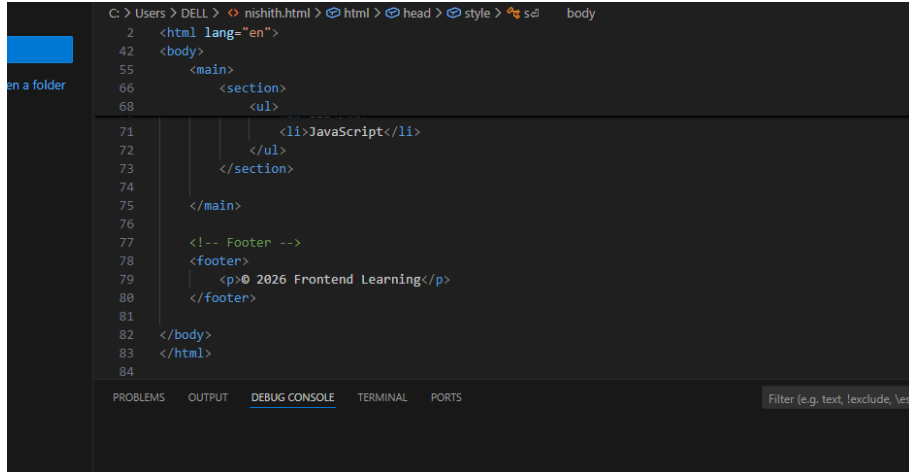

```
C:\Users\DELL > nishith.html > html > head > style > sd body
2 <html lang="en">
42 <body>
55 <main>
66 <section>
68 <ul>
71 <li>JavaScript</li>
72 </ul>
73 </section>
74 </main>
75 </main>
76 <!-- Footer -->
77 <footer>
78 <p>© 2026 Frontend Learning</p>
80 </footer>
81 </body>
82 </html>
84
```

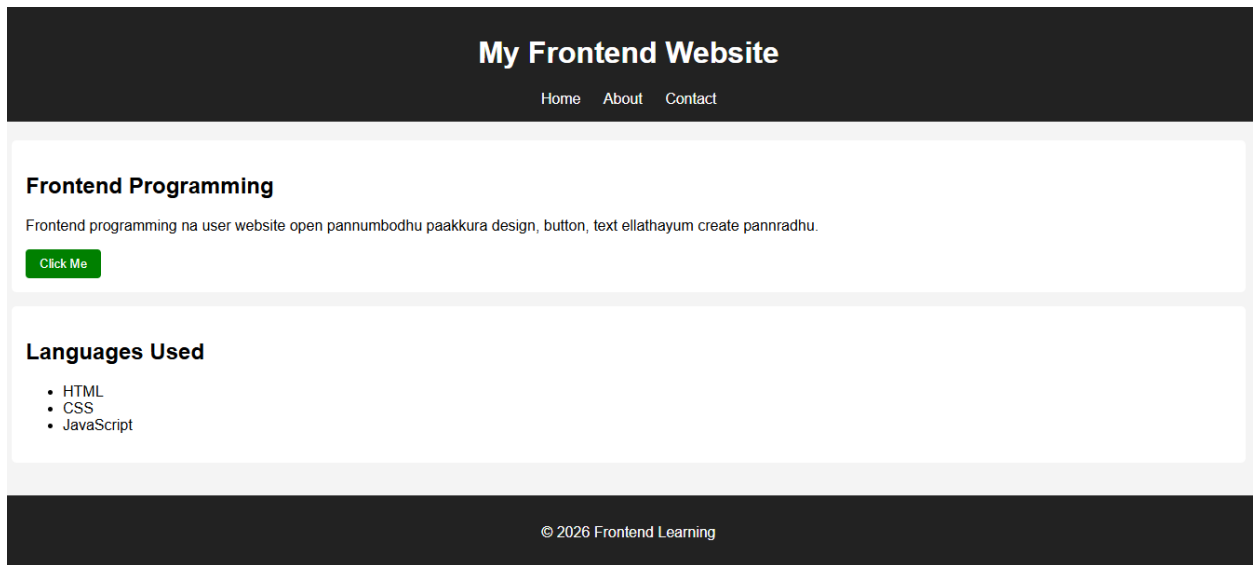

```
C:\Users\DELL > nishith.html > html > head > style > sd body
2 <html lang="en">
3 <head>
6 <style>
9 margin: 0;
10 background-color: #f4f4f4;
11
12 header, footer {
13 background-color: #222;
14 color: white;
15 text-align: center;
16 padding: 15px;
17 }
18 nav a {
19 color: white;
20 margin: 0 10px;
21 text-decoration: none;
22 }
23 main {
24 padding: 20px;
```

Frontend Mini Labs & Skill Labs

```
C:\Users\DELL > nishith.html > html > head > style > s& body
2  <html lang="en">
42 <body>
55   <main>
66     <section>
68       <ul>
71         <li>JavaScript</li>
72       </ul>
73     </section>
74   </main>
75 </body>
76
77 <!-- Footer -->
78 <footer>
79   <p>© 2026 Frontend Learning</p>
80 </footer>
81
82 </body>
83 </html>
84
```

OUTPUT:

CONCLUSION:

This project that I have created for during cryptonic Area `s Virtual Internship with my Domain is Web Development . It serves as a foundation for learning advanced web technologies such as CSS and JavaScript in the future. It is done by Nishithkumar selvarajan.
